

FOUNDATION® TURF HERBICIDE

Foundation® Turf Herbicide

2.5 gallons

Part #12-891

Containing four active ingredients, **Foundation® Turf Herbicide** provides multiple modes of action to control a wide spectrum of weed species in turf grass, non-crop, and other sites. Foundation has excellent post-emergence activity with proven performance. DEA form of 2,4-D increases the effectiveness of Foundation® on hard-to-kill perennial weeds. Sulfentrazone provides excellent residual control of ALS and triazine-resistant weeds. Dicamba provides selective pre and post-emergence control of susceptible broadleaf weeds. Triclopyr controls tough, woody plants with excellent turfgrass safety.

- **Active Ingredients:** Triclopyr, trimethylamine salt; Sulfentrazone; 2,4-D, diethanolamine salt; Dicamba, dimethylamine salt
- **REI:** 48 hours
- **Method:** Aerial or Ground
- **Weeds Controlled:** Wide spectrum of weed species (See label for complete list)
- **Rate:** See label for complete rate information
