PROPER CHEMICAL USE

HAZ Hazardous products are defined as such by the Department of Transportation. Please ask a Carlin Sales representative for current shipping information.

Product is OMRI certified.

STOP Restricted use. Pesticide purchase requires applicator's license to be on file at Carlin Sales/ProGreen Plus prior to placing order.

Product is labeled for use on vegetable crops.

SHIPPING HAZARDOUS MATERIALS:

Hazardous products are determined as such by the Department of Transportation. Ask your Carlin Sales representative for shipping information. Additional shipping fees may apply.

ALWAYS READ THE PRODUCT LABEL PRIOR TO PESTICIDE USE.

KEYS TO EFFECTIVE PESTICIDE USE:

- *Read the label prior to use to avoid costly or dangerous mistakes.
- *Use rates as recommended on label.
- *Pay close attention to weather conditions that may affect safety or performance such as wind, rain or sunlight. These factors can determine the effectiveness or safety of a pesticide application.
- *Notice the details such as "Do not use on..." or "Apply only when foliage is dry" or "Do not leave mixture in tank overnight." These details mean the difference between safe and profitable use of pesticides and costly mistakes.
- *Always follow recommended safety precautions. It is not only the law but good common sense.
