#### 2. HAZARDS IDENTIFICATION

Serious Eye Damage/Eye Irritation, Category 2A Acute Toxicity: Inhalation, Category 4 Acute Toxicity: Oral, Category 4 Skin Corrosion/Irritation, Category 2

| GHS Signal Word:                     | Warning                                                                                                                                                          |
|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| GHS Hazard Phrases:                  | Causes serious eye irritation.                                                                                                                                   |
|                                      | Harmful if inhaled.                                                                                                                                              |
|                                      | Harmful if swallowed.                                                                                                                                            |
|                                      | Causes skin irritation.                                                                                                                                          |
| GHS Precaution Phrases:              | Wash hands thoroughly after handling.                                                                                                                            |
|                                      | Wear protective gloves/protective clothing/eye protection/face protection.                                                                                       |
|                                      | Use only outdoors or in a well-ventilated area.                                                                                                                  |
|                                      | Avoid breathing dust/fume/gas/mist/vapours/spray.                                                                                                                |
|                                      | Do not eat, drink or smoke when using this product.                                                                                                              |
|                                      | Take off contaminated clothing and wash it before reuse.                                                                                                         |
|                                      | Keep out of reach of children.                                                                                                                                   |
| GHS Response Phrases:                | IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if                                                                                |
|                                      | present and easy to do. Continue rinsing. If eye irritation persists, get medical                                                                                |
|                                      | advice/attention.                                                                                                                                                |
|                                      | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for<br>breathing. Call a POISON CENTER or doctor/physician if you feel unwell. |
|                                      | IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth.                                                                          |
|                                      | IF ON SKIN: Wash with plenty of soap and water. If skin irritation persists, get medical advice/attention.                                                       |
| GHS Storage and Disposal<br>Phrases: | Dispose of contents/container in accordance with local/regional/national/international regulations.                                                              |
| Hazard Rating System:                | Flammability Instability                                                                                                                                         |
|                                      | Health                                                                                                                                                           |

Special Hazard

#### SAFETY DATA SHEET Progreen Plus Professional Turf Fertilizer 25-0-4 50% STN Micros Organic

Potential Health EffectsAcute: May cause respiratory tract irritation.(Acute and Chronic):Chronic: Not expected to be a chronic hazard.Inhalation:May be harmful if inhaled. Inhalation of dust may cause respiratory tract irritation.Skin Contact:May cause skin irritation. May be harmful if absorbed through the skin.Eye Contact:Dust may cause mechanical irritation. May cause eye irritation.Ingestion:May cause gastrointestinal irritation with nausea, vomiting and diarrhea. May be harmful if swallowed.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

| CAS #      | Hazardous Components (Chemical Name) | Concentration |
|------------|--------------------------------------|---------------|
| 16389-88-1 | Dolomitic limestone                  | 2.0 -85.0 %   |
| NA         | Other Non-Hazardous Ingredients      | 2.0 -85.0 %   |
| 57-13-6    | Urea                                 | 11.0 -92.0 %  |
| 7447-40-7  | Potassium chloride                   | 4.0 -70.0 %   |
| 1319-33-1  | Sodium Borate                        | < 1.0 %       |
| 1317-38-0  | Copper oxide                         | < 1.0 %       |
| 1309-37-1  | Iron oxide                           | < 1.0 %       |
| 1314-13-2  | Zinc oxide                           | < 1.0 %       |
| 1344-43-0  | Manganese oxide                      | < 1.0 %       |
| 7783-28-0  | Diammonium phosphate                 | 3.0 -71.0 %   |

## 4. FIRST AID MEASURES

| Emergency and First Aid<br>Procedures:Remove from exposure and move to fresh air immediately. If not breathing, give artificial<br>respiration. Get medical aid.In Case of Inhalation:respiration. Get medical aid.In Case of Skin Contact:Flush skin with plenty of water for at least 15 minutes while removing contaminated<br>clothing and shoes. Get medical aid if irritation develops and persists. Wash clothing<br>before reuse.In Case of Eye Contact:Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and<br>lower eyelids. Get medical aid if irritation develops and persists.In Case of Ingestion:If swallowed, do not induce vomitimg unless directed to do so by medical personnel.<br>Never give anything by mouth to an unconscious person. For further assistance, contact<br>your local Poison Control Center 1+800-222-1222.Note to Physician:Treat symptomatically and supportive//Explosive Limits:LEL: No data.Autoignition Pt:No data.Suitable Extinguishing Media:<br>Substance is noncombustible; use agent most appropriate to extinguish surrounding fire.<br>Use water spray, dry chemical, carbon dioxide, or appropriate foam.Fire Fighting Instructions:As in any fire, wear a self-contained breathing apparatus in pressure-demand,<br>MSHA/NIOSH (approved or equivalent), and full protective gear. During a fire, irritating<br>and highly toxic gases may be generated by thermal decomposition or combustion. Use<br>extinguishing media appropriate to surrounding fire conditions. Substance is<br>noncombustible. Decomposes at high temperatures, resulting in toxic and corrosive<br>products. Water runoff can cause wirtoward age. Dike and collect water used to<br>fight fire. |                              |                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |  |  |

#### SAFETY DATA SHEET Progreen Plus Professional Turf Fertilizer 25-0-4 50% STN Micros Organic

6. ACCIDENTAL RELEASE MEASURES Steps To Be Taken In Case Use proper personal protective equipment as indicated in Section 8. Material Is Released Or Spills/Leaks: Vacuum or sweep up material and place into a suitable disposal container. Spilled: Clean up spills immediately, observing precautions in the Protective Equipment section. Avoid generating dusty conditions. Provide ventilation. 7. HANDLING AND STORAGE Precautions To Be Taken in Wash hands thoroughly after handling. Minimize dust generation and accumulation. Avoid contact with eyes, skin, and clothing. Keep container tightly closed. Avoid Handling: ingestion and inhalation. Use with adequate ventilation. Wash clothing before reuse. Avoid breathing dust, mist, or vapor. Keep container closed when not in use. Store in a cool, dry, well-ventilated area away Precautions To Be Taken in from incompatible substances, inaccessible to children and domestic animals. Storing:

## SAFETY DATA SHEET Progreen Plus Professional Turf Fertilizer 25-0-4

50% STN Micros Organic

**12. ECOLOGICAL INFORMATION** Environmental: No information available. **General Ecological** Information: Physical: No information available. **13. DISPOSAL CONSIDERATIONS** Chemical waste generators must determine whether a discarded chemical is classified Waste Disposal Method: as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261. Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification. RCRA P-Series: None listed. RCRA U-Series: None listed. **14. TRANSPORT INFORMATION GHS Classification:** Serious Eye Damage/Eye Irritation, Category 2A - Warning! Causes serious eye irritation Acute Toxicity: Inhalation, Category 4 - Warning! Harmful if inhaled Acute Toxicity: Oral, Category 4 - Warning! Harmful if swallowed Skin Corrosion/Irritation, Category 2 - Warning! Causes skin irritation LAND TRANSPORT (US DOT): DOT Proper Shipping Name: Not Regulated. **DOT Hazard Class: UN/NA Number:** LAND TRANSPORT (Canadian TDG):

**TDG Shipping Name:** 

Not Regulated.
